

Game Classification

Update #35

July 2008

Game Classification Update from the Office of Film and Literature Classification July 2008

Welcome to the Office of Film and Literature Classification's monthly newsletter on computer games classifications.

July classifications

In July 2008 we classified one game:

- *Siren Blood Curse: Episodes 1-3* – Contains horror scenes. Contains violence.

An excel spreadsheet with all games classified in New Zealand is attached to this email. The new classification for July is highlighted on a separate worksheet.

New Classification Label Poster

Under section 42 of the Films, Videos, and Publications Classification Regulations 1994, premises which supply or exhibit films (including DVDs, videos, and video games) must display a poster that explains what the classification and rating symbols mean. This poster must be no smaller than 40cm by 28cm and must be displayed in a prominent location, such as at the point of sale.

The new poster has been developed in conjunction with the Film and Video Labelling Body and the Censorship Compliance Unit at the Department of Internal Affairs. The Office of Film and Literature Classification will be distributing the poster to all DVD and video game retailers, cinemas, bookstores and libraries over the coming weeks. The posters are supplied free of charge.

In this issue:
